Be Ready For War. Mexico Kills Quickly. That Wedding Guest.

By ARTHUR BRISBANE

GENERAL SUMMERALL tells the "three months' delay may be fatal."
In Europe it is said, quite calmly, that "Germany will probably not go to war with Poland before 1932."

IF the world goes to war again it will prove its insanity. But it has done that often. This country do want war, but sometimes it can't be

The United States should be ready, in the air, and below the water espec ially. And there should be a separate cabinet officer, with complete control under the president, of the national air force, interested in nothing but that air force.

MEXICO administers punishing swiftly. On Monday Mexican troops killed forty bandits, caught two and hanged them immediately. That was at Los Cruces. At Tepic, fourteen bandits captured alive were immediately lined up in the public square, shot dead, then banged to tree with shot dead, then hanged to tree with warning placards on each body.

Try Magnesia For Indigestion

People who suffer from indigestion usually have tried pepsin, charcoal, drugs and various digestive aids and got little more than slight temporary relief—sometimes not even that.

But before giving up to chronic dyspepsia, just try the effect of a little Bisurated Magnesia—not the ordinary commercial corbonate, citrate or milk, but pure Bisurated Magnesia which you can obtain from practically any druggist in either powder of tablet form.

Take a teaspoonful of the powder or four tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach which now causes your food to ferment, and sour, making gas, wind, flatulence, heartburn and the bloated or heavy, lumpy feeling that seems to follow most everything you eat. You can enjoy your meals without a fear of indigestion.

Warm Comfort in Every Room With the Improved Anchor Hot - Blast **COAL HEATER**

Wherever heating stoves are used the Anchor Hot Blast proves its superiority—proves that in down-right efficiency, in convenience, in actual economy, it is without an equal.

This superiority is not an accident, but is the result of many years of practical and scientific heating stove manufacture and practical tests.

The Anchor Hot Blast will burn any fuel hard coal, soft coal, lignite, wood or coke, giving a uniform heat under perfect control, and slow economical combustion. Because of the hot-blast feature .the gases from soft coat are completely burned, making a ton of soft coal equal to a ton or more of expensive hard coal.

Careful attention has been applied to every detail of construction. And it is mounted absolutely air-tight and remains air-tight, because these details have been perfected and made practical.

In addition to a fine appearance that will last the life of the stove, the Anchor Hot Blast offers real home comfort and a saving of 25 per cent on your fuel bill.

Study these construction features. Know that your Anchor Hot Blast will save its cost out of the coal bin and pay dividends for years to come in warm home comfort and satisfaction.

The Improved Anchor Hot Blast Has No Equal

More than a thousand of them are in use in this vicinity and we have yet to hear of a purchaser who was not more than satisfied.

A small payment delivers your purchase.

New Models Lower Prices

Two new models, a sedan and brougham, have just been added to the Paige line at lower prices, making a Paige six available for the first time for less than a thousand dollars.

Both cars are attractive, fast, comfortable, long lasting; and they bring a new economy to Paige ownership.

The introduction of these new models follows the substantial improvements on all Paige sixes and eights, and lower prices on ten of the twenty models, announced August fifth.

Paige improvements, affecting both bodies and chassis, add materially to appearance, and to the traditional performance and endurance of all the cars. Prices now range from \$995 to \$2665, f. o. b. Detroit. We invite your inspection.

Ruth On Way to New Record

Despite a winter of alleged scandal, in which accused players were exonerated after a rigid investigation, and fans witnessed the appearance of Ty Cobb and Tris Speaker in uniforms other than those of the Detroit Tigers and Cleveland Indians, the 1927 baseball season has been one of the most successful in the history of the national pastime. The Heydler circuit magnates have reaped a harvest at the box office, with the close fight causing a merry recording at the turnstiles, while the race for the home run honors has been an asset in an otherwise uninteresting battle for the American league championship. And the junior league should thank George Herman Ruth and his teammate, Lou Gehrig, for providing the excitement.

Proving that he is worth \$70,000 a year and a three-year contract, Babe Ruth, long the king swat, has "soaked the old pill" in every park of the American league, and today he has the distinction of having caught up with his 1921 record, 59 circuit smashes. His fifty-eighth and fifty-ninth were registered in the Yankee stadium yesterday, when he poled two homers into the right field bleachers during the game with Washington.

Gehrig, Ruth's pupil and rival for home runs, gave the mentor a lively race until a few weeks ago, often taking the lead over the older and more experienced man. Today Gehrig has 46 homers to his credit and may add one or two more before the bell rings.

However, fans everywhere will be pulling for the Bambino to clout another four-bagger in the two remaining games with the Senators, for one more homer will give George Herman Ruth, the game's highest salaried star, a record that probably will stand for many years.

Radio Reality

Four men died while listening to the radio account of the seventh round of the Dempsey-Tunney fight. Six others died at seventh round of the Dempsey-Tunney fight. Six others died at it has one big main street lined on other times during the contest, and one while engaged in an arguelither side with open fronted saloons ment after it. A great insurance company states that five and four-tenths men might have been expected to die in that half hour, fight or no fight, from heart troubles.

This means that only five or six of the deaths can be said to be caused in any degree by the fight. And the wholly interesting point is that none of those who died were present in Chicago. The deaths, one might say, were caused by an excitement due to imagination.

It is a curious process. The images of the men fighting were produced on the retina of the announcer's eyes. These were transmitted to his brain and came out through his voice. The radio took his utterances to pieces—millions of pieces—and put them shoddy evening clothes on display, but the oldest profession has become together again in thousands of receiving sets. And so great was a starvation calling. All visitors must the effect of reality produced that in eleven men excitement ran start across the border at five in the and Mr afternoon or stay all night among avenue, mario longer.

Small Business Passes

Writing in the Review of Reviews, Col. Leonard P. Ayres, business analyst, lines up the country's future business trend as

We are entering upon a new economic era which will combine two things formerly regarded as incompatible-low prices and prosperity.

It will be an era of big business, the smaller and less efficient. producers and distributors being crowded out more and more and the larger and more efficient concerns growing more powerful.

There will be fewer periods of depression, also fewer opportunities to start new businesses.

This, perhaps, is the most notable change forecast:

"There will be more employes and fewer proprietors. For white stripes, a straw Homberg hat most business men there will be less risk, less worry, less responsibility, and more steady jobs in middle and subordinate positions with large corporations."

So the age of individual enterprise in American business is rapidly passing. The organization, not the man, will be the thing of Americans who divide gambling bereafter—except for a few supermon functioning of spots. If you like the whoop-dee-doc hereafter-except for a few supermen functioning as captains of of a county fair you will enjoy The big industries.

Many will like that. Many will resent it. When the many it has a long haul ahead before reach ere working for the few, and content with taking orders, it will be ing that long haul ahead before reach a very different America.

Our modest notion of zero aviation is flying across country with a lion for a passenger. Lions are not Lindberghs, and might get hungry on the way.

There's some merit, after all, in an old-fashioned automobile crank. A man in New Philadelphia, O., motoring in the country the other day, found when he got back that he had speared a 75pound pig. Yes, he brought home the bacon.

Sometimes, in our more cynical moments, we begin to fear that the manly art of self-defense will yet be commercialized.

No wonder those Chicago people step lively. They have to. The thermometer there dropped from 92 to 45 degrees the other day in a few hours.

We arrest private citizens for carry guns, but haven't got that far yet with nations.

HASKIN'S LETTER By FREDERIC J. HASKIN

State Insistent Upon Rights. WASHINGTON, D. C., Sept. 80. The States of the Union finally are girding their loins for what most of hem regard as a supreme battle for independence. An organization known as the National Conference of State ed rancher husband at the adjoining Washington to confer on measures for table in a foreign land. gard as their sacred rights-rights which, it is claimed, have been ser-iously encroached upon by the federal Government. It is the oldest of great national

issues. It came near preventing the formation of the Union in the hectic years following the winning of inde pendence from Great Britain. Came, some think, nearer to dissolve ing that Union at the time of the Civil War. Now it is rife again and while most of the reasons for raising the fundamentals are the sam Delegates named by the legislatures

of thirty-three States who sat in conference here were not concerned with secession from the Union; no such thought is in the minds of the mem-bers of this new organization What they do seek however, is more freedom from federal domination and the prevention of further encroachments by the federal authorities.

Congress has enacted so many laws in the last two decades which mping upon states' rights, in the opinion of the delegates, that it is time to call a halt. There is, notably, the matter of public roads. A federal low provides for participation by the Federal Government in the con-struction of highways. It is true that a State need not take advantage of this law which provides that the Federal Government shall pay half the costs and the State half the cost, but the temptation to take the government money often is succumbed to. This means that the State must raise its half. To do so it issues bonds. These are exempt from taxation and add to the vast volume of tax exempt bonds, already outstanding, which such men as Secretary of the Treasury Mellon regard as pernicious. To pay the in-terest taxes must be increased. President Coolidge has called attention to the fact that while federal taxes and debts are going down, state taxes and debts are increasing. Thus, say the members of this new conference, intrusion of the Federal Government in state matters bring a whole train of

Objections also is made to the federal inheritance tax which, it is claimed, should be purely a state func-tion. and take your hands off what should be our revenues and we will take care of ourselves." Governor Ritchie may be regarded as the leader of the new states' rights movement. For many years he has been its leading champion. At first he was a voice erying in the wilderness but his continued insistence upon the issue has made many converts. His State of Maryland is as little trammelled as

possible by federal interference and is generally referred to both by Marylanders and others as "The Maryland Free State." One of the strongest bases of objection to the federal encroachment is that, acceptance of federal aid is made the ground of a claim of federal jurisdiction over state functions. It is somewhat like the ancient Arab-

ian story of the camel which, in a sandstorm, asked its master if it might put its head in his tent. Consent was given but, once the camel had its head in, it edged more and more into the tent until its whole body was in and Arab was crowded out into the storm. Prohibition has done much to agitate the question of states' rights. States which were not in favor of the

Eighteenth Amendment strongly object to having federal prchibition agents entering the houses of their citizens without warrant and exercising a police power which they believe should be lodged solely in the local authorities by consent of the citizens of the local community. PIMPLES AND BLACK-**HEADS ALL OVER FAGE**

Was ashamed to be seen-simple remedy brought quick improvement

Munden, Va., Aug. 5:—"Awhile ago I began to be troubled with enlarged pores and blackheads. Then pimples developed, and even boils. My skin was very sore and in a terrible condition. It was so disfigured and unsightly I was ashamed of it. I tried about everything to be had for pimples, but with no good results. I had heard Resinol Ointment and Soap so highly recommended for troubles like mine, I decided to try them. After one treatment there was a decided improvement, and the pimples began to fade away. I advise everybody with skin trouble to try Resinol." (Signed) Miss Hazel Beasley. Your druggist sells Resinol Soap and Ointment. Why don't you try them?

Grim Drama of Russia on Screen at American.

Strange shadows of terror, vivid portrayals of the struggle that rent asunder a great nation, and eerle characters from a world unknown to the rest of the nations of the earththese are the background for Lon Chaney's strangest role in his new Metro-Goldwyn-Mayer starring vehicle "Mockery.

The new picture, now playing at the American theatre, a grim drama of the Russian revolution, shows Chaney in one of the most startling characetizations in his checkered history. He is a Russian peasant, a strange half-animal of the lower classes, product of generations of serfdom, suddenly thrust into the red struggle. His terrors, his sudden seizure of sinister power, and the strange trick of fate that binds his with that of an aristocratic woman in an amazing plot of love, peril and intrigue, make his role one of the most complicated characterizations that has ever fallen to his lot.

He plays it with a remarkable artistry, bringing out the many sides of the odd character with the unerring skill of the finished actor, in delicate little touches that paint a complete mental picture of the weird

person he portrays.

Barbara Bedford is seen as the he orine, Tatiana, an aristocrat fleeing from the onrush of the Reds, who comes under the power and protection of the strange central character in the story, and Ricardo Cortez furnishes the romantic figure as her lover, a young Russian officer. Mack Swain, Charles Puffy, Kai Schmidt, Emily Fitzroy, and others of note are seen in splendidly balanced roles. The settings are lavish, giving a vivid picture of Russia during the throes of the revolt.

Many farm hands of Ireland, home of the Irish potato, have gone to Scotland to work in the potato fields.

SHOPPING AT A STORE WHERE SERVICE IS THE WATCH WORD

RESTIGE simply means that a store has become identified with Fair Dealing and that to deal there means to buy wisely and well. Prestige is won, always, by giving courteous service and the best merchandise at prices which are invariably just.

Prestige is a precious business asset because it brings trade, automatically. It is the incentive which causes a neighborhood or an individual to say of a certain store: - "They are good people to deal with."

We have grown, progressed and prospered, along with our city, because we have earned the right to just such expression of trust as the above.

Public school buildings were apparently particular targets for the storm's wrath, but with the exception of two bodies found in the ruins of Central high school this morning no loss of life was reported in the schools, although school property damage was estimated at more than \$1.500,000.

Of the 6,500 enrollment in the seven schools damaged 18 were reported injured at Central high school and two at Yeatman intermediate school, although it was reported many pupils suffered minor cuts caused by the falling of glass from broken windows.

Mayor's Appeal. After a night of relief work supervised by the Red Cross, with rescue and patrol duties being taken care of by police, national guardsmen and 800 soldiers from Jefferson barracks, the mayor issued the following appeal for To the people of St. Louis:

"An emergency need affecting hundreds of our fellow St. Louisians exists as the result of yesterday's storm.

"After personally surveying as much of the area as the debris and wreckage would permit, I feel that the extent of havoc and the consequent saffering makes this call for immediate relief necessary.' Dollars Are Immediate Need.

"Through the splendid response of the police, the fire department, the American Red Cross, the national guard, the American Legion and other organizations, the wounded and suffering are being cared for.

"It is difficult in the first flush of the disaster to measure the fullest extent of the sufferings or to estimate the ultimate requiremens for complete alleviation. These facts can be ascertained for later use. The fact that there are homeless victims to be housed, provisioned and clothed until irregular today. Wheat was %c lower mature plans for rehabilitation can to %c higher; corn %colower to %c be arrived at makes an immediate higher and oats %c higher. Opening our own citizens necessary.

Red Cross Combs Ruins. Augmented by 800 soldiers of the national guard and hundreds of police, firemen and volunteers, the Red Cross workers continued to comb the ruins for additional victims.

All night the bodies of the dead and injured were being taken to various hospitals and morgues. As body after body was being re-

covered from the debris of buildings, workers predicted that the total of deaths might reach or exceed 100. A veritable wilderness of crumpled-up buildings, factories, dwelling-places and apartment houses confronted re-lief workers, as they ploughed through heap after heap of debris in search of

Police ran about shouting warnings all night to weeping women and children who were running about the streets seeking relatives, and to men digging frantically through the piled up wreckage in search of lost ones. Confusion reigned throughout, with authorities working madly to clear the

Presenting Autumn's Latest Styles

Rich and Supple Fabrics Mark the New Coat Modes

NEVER have the coats of Fall and Winter been so luxurious-so abundantly trimmed with lovely furs. Never quite so youthful or slenderizing in silhouette. Coats for afternoon wear flaunt very important looking sleeves, some widely flared and drooped at the hand and decorated with fur tails or fur "bracelets."

PRICED LOW.

FUR COATS At Great Savings

Choice of every popular fur. Coats purchased when styles were first established and when prices were lowest. We offer our savings to you. Coats of better workmanship and newer skins. All beautifully silk lined.

BRING IN YOUR OLD FUR COAT AND TRADE IT IN ON A NEW ONE.

NEW FROCKS FOR FALL

Frocks for street wear, smart afternoon dresses, clever sports styles, dainty dinner dresses-all of these included in this carefully selected group. In fact, one has only to see these dresses to realize that the styles, fabrics and workmanship are comparable only to frocks that are much higher priced.

Every new style feature — the uneven hem, the side

drape, the bolero—and in the season's most favored colors and black.

"All sizes for women and misses.

30-DAY JOURNEY

Work for Meals at Farm Houses; Sleep

Andrew Szemansco, 20, and Albert Wyka, also 20, both of Passaic, N. J., passed through East Liverpool, yesterday afternoon, on a hiking trip from New York to Chicago.

They left New York September 10 and plan to reach Chicago in 30 days. Thus far they have rested two days, one day in sightseeing at Getteysburg. The hikers are following the Lincoln highway as far as possible. They spent Wednesday night near Clinton, reaching Chester about noon yesterday. No Turk Nash. Cords Series This Season

Lateness Prompts Tiremen to Call Off Games.

There will be no Turk Nash-Chester post-season baseball series. As a result of the desire of Superior Cord players, following their seven-game struggle with Homer Laughlin to call the season quits after they had won the flag, management of the West Virginia club has definitely withdrawn

Manager Riley took the poll of Ches ter players at the close of the recent series and the consensus of opinion was that "they had had enough."

The post-season games were proposed after the Turk-Nash club had challenged the perior Cords for a \$500 side bet, for one game or a series of games, and arrangements had practically been completed prior to the Chester-Laughlin title contests, but the unexpected length of the series and the lateness of the season called

Jack Bradley, rookie pitcher obtained by the Red Sox from Waterbury, Conn., held the slugging Athletics to five hits and trimmed them, 6 to 1. Another recruit hurler, Ray Miller, whom the Phillies got from Syracuse N. Y., beat the Braves, 7 to 1.

Opening Game of Final Series.

By Lee Conklin.

NEW YORK, Sept. 30.—Pittsburgh can clinch the pennant by defeating the Reds in Cincinnati Even if the Pirates lose all their three remaining games, they will get no worse than a tie if the Cardinals and Giants make a clean sweep in their two and three games,

The Cardinals passed out of the picture when they lost to the Reds yesterday, 3 to 2, while the Pirates and Giants were idle. Frankhouse, star St. Louis rookie, allowed, only five hits but suffered his first defeat in the big leagues when he made a wild throw. Frisch's homer failed to help the Cards, who could make but little head-

way against Jakie May.

With their pennant hopes practically ruined, the Cardinals must now tie the Red birds for second place by beating Brooklyn today as St. Louis does not play. The standing:

Meet Reds Today in Points to Pitching as Dominant Factor in Final Decision and Thinks Hugmen Will Have the Edge.

By Davis J. Walsh.

NEW YORK, Sept. 30 .- Entering his still, small voice into the general hilarity, like a prayer at a bar rail, the writer desires to state today that he thinks the New York Yankees should win the world series of 1927. He is throwing out comparative hitting, fielding, base running and kindred appurtenances of those who like to arrive at a given point by way of the servant's entrance,

The respective infields are about ad stand off anyhow. So are the outfields and the catching staffs. The Pirates greater versatility and speed. These departments will go along pretty much as is, without much of a break either way and, if there is one, it probably will come from a quarter least expected. No one figured that travel at a fast pace to ward off the rush of the Giants. New York can of base hits in 1906 nor that Fred Snodgrass would drop the only fly ball really worth catching in 1912.

Pitching is Secret. However, you usually can put your .616 finger on pitching and keep it there.

Bucs Lack Good Left Hander.

For example, the three big men in Yanks have more power on attack, the the Yankee attack are Earl Combs, who gets a lot of hits and is on the gers. All are left hand hitters and the Pirates haven't a first class left hand pitcher in the outfit. Yde and Cvengros will get into the series only in a

desperate emergency. Of course, Ruth and Gehrig hit both kinds of pitching but they prefer right handers and they will get them in Hill, Kremer, Meadows, Miljus and Aldridge. On the other hand, a slow-ball left hander can cause the entire Yankee array much embarrassment, as Bill Sherdel amply proved in the

1926 series. Up To Waner Brothers. Now, to reverse the field, suppose we look at the other side of the de-

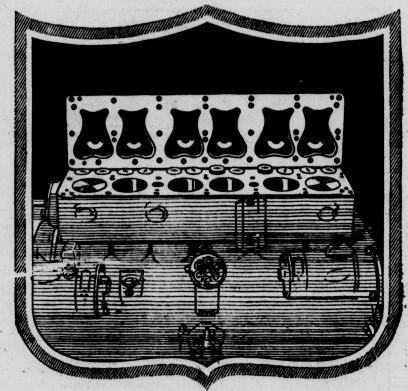

bate. The Pirates, with right hand hitters like Wright, Traynor, Harris, Barnhart and Cuyler ready to go, have not exactly a club for which one save a left hander. Yet, much of the club's punch is focused around Paul and Lloyd Waner. Both are left hand almost as much interest as the hot National league race, only 1,500 fans themselves, would seem to give the turned out here yesterday to watch the Babe.

provides Amazing Smoothness, Silence and Power

Everyone who drives the Oakland All-American Six marvels at the smooth and whispering flow of power produced by the new G-M-R Cylinder

Specifically, the G-M-R (General Motors Research) Head accomplishes three results:

1. It reduces "detonation" or

'spark knock' to a negligible factor while using only ordinary gasoline. 2. It completely eliminates roughness or "thump"—an entirely

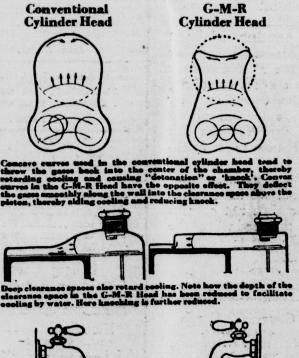

different engine noise.

3. It provides greater power and economy because it allows the spark to be

advanced to the point of maximum efficiency. (Once set, the Oakland spark remains in proper position since it is automatically controlled.)

The G-M-R Head is only one of the engineering advancements which have created such widespread favor for the All-American Six. Come in for a demonstration of the principles

Richard J. Meade.

TOLEDO, O .- Many jokes have been told about baseball writers telling league team owners how to home a pennant, but Richard J. Toledo has been in the second divis ion and at the bottom of the league for so long that vaudeville actors always got a good laugh in this part of

ball for a third of a century, and when the new owners took charge of the Mud Hens last year they made him president of the club. He immediately engaged Casey Stengel of big league fame to manage the team. Stengel's legs played out early in the season, but he remained on the bench to tell

Survey Felonies in Seeking Plan for Prevention.

COST IS CITED

CHICAGO.-In a survey of Illinois nois. crime by the Illinois Association for Criminal Justice 25,000 felonies committed in this state in 1926 are being studied to provide information as to the cause, it was disclosed here today. A similar survey of criminal conditions made in Missouri shocked the public into an indignation that led to some salutory corrections. The Illinois Association for Criminal Justice promised. The survey committee is the outcome of a resolution passed by the Illinois association more than a year ago. A donation of \$100,000 was made by the Industrial club of Chicago for the survey, the results of

which are expected to lead to some drastic measures of crime prevention. Cost to Taxpayers.

Furthermore, the committee is counting the cost of crime to the taxpayers, each crime levying, last year an average cost of \$1,000 on the pub lic treasury.

A preliminary report of the commit

tee, to be ready early next year, is expected to show that a peak cost for crime must be reached when a desperate remedy will have to be applied.

Authorities have declared that this remedy may grow out of an aroused public sentiment. "Public sentiment" will ultimately settle this problem," one of the members of the committee declared.

Japan Earthquakes Having Pronounced Effect on Children

TOKIO.-The periodic earthquakes which shake Japan are having a protounced effect on children who are fusecur, and their minds are decidedly veakened.

This has been demonstrated by an Investigation just concluded by Ministry of Education, resulting in the decision to open special classes for "earthquake children," who are incapable of keeping pace in school with

more fortunate companions.

The children of Tokio are hardest hit, due to the earthquake of 1923 which destroyed most of the city. More that 100 special classes are to be started this autumn in Tokio schools for children now of school age whose minds were affected by the great

THE FIGHT IS OVER

Some thought Dempsey was best man-Some thought Tunney was best man-The argument was settled Sept. 22.

If MOORE'S SEVENTEEN on one side, and the pick of all other makes of heating stoves, on the other side, could be turned into the prize ring, the result would not be a "deeision", but a knock-out by Moore's Seventeen.

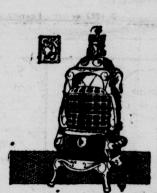

The reason is, the best material was picked and has been trained for years and can be depended on to deliver the punch at the right time and keep it up year after year and not hurt itself, as is evidenced by the fact that the only repairs that have been ordered are four grate bars-
